Burns Associates

Key Experience

Fifty (50) years' experience in the international construction industry. Civil Engineering, Mechanical and Electrical Engineering, Oil Processing Facilities, Marine, Building Services, Oil Refineries, Industrial and Recreational Facilities, Buildings.

Initially based in London as a Project Surveyor, Tony's geographical experience includes Sullom Voe in the Shetland Isles, the Eastern Seaboard in Thailand, Singapore, Hong Kong, Leipzig in Germany, Warsaw and Budapest in Eastern Europe, Wembley Stadium in London, Abu Dhabi and Dubai in the United Arab Emirates and Riyadh in Saudi Arabia.

In 1979, Tony became a Partner in a London based practice of Chartered Quantity Surveyors with special responsibility for British Gas Corporation's mechanical and electrical contracts.

His commercial and contractual services provided for owners, main contractors and subcontractors alike has extended to the preparation, procurement and negotiation of contracts; the evaluation of tenders and tender negotiations; change orders and variations; extension of time submissions, loss and expense claims and the settlement of insurance claims.

Tony has acted as Quantum Expert on numerous occasions and assisted legal teams in the research and preparation of documentation for adjudication, arbitration and litigation purposes. This has included drafting Witness of Fact Statements including the assembly of contemporaneous documentation.

Tony's organizational experience includes the responsibilities of running a partnership in London, being a Director of Burns Associates in London, Hong Kong, Abu Dhabi, and Thailand together with the management of cost engineering and quantity surveying teams on various international projects.
